Brief: The customer; husband and wife, came to us from Co. Leitrim for lighting options for their home improvements and a commercial project. They needed new light fittings for their home and B&B. Our customers brought in tiles and other samples of their interiors/plans to show us their vision.

Ronald Porter, one of our sales representatives helped them pick out the best lighting options for each room in the house and B&B and our customers were delighted with the result.

Testimonial:

“Ronnie was absolutely excellent to work with. We felt as though we had a personal Interior Designer as well as someone to help us choose our lighting. We brought in examples of what we wanted and Ronnie helped us match the lighting to our décor. My wife and I had visited a lighting showroom closer to us but no one batted an eyelid at us when we walked in or tried to help. Therefore, we knew that we needed to come to National Lighting. I think National Lighting is the best in the country for knowledge, service and unusual products. We are very happy with our experience with National Lighting.” – *Husband, Domestic and Commercial Project, Co. Leitrim*
