**Brief:** Our customer came to us for lighting options as they were renovating their house after 35 years of living there. They wanted to create a country cottage theme throughout their house.

Michele our Showroom Manager provided them with options that would match their cream and neutral colour scheme. The customer is delighted with the result and service they received.

The home renovation was self-designed by our customer's wife and was completed in February 2017.

**Testimonial:** "My wife and I are 100% happy with the products and service provided by National Lighting. Michele could not have been more helpful. The service was excellent!" – *Customer from Waterford*

Images of the Country Kitchen

The Chester 5 light pendant (above) is finished in cream with brushed gold effect paint and off white pleated faux silk shade. This fitting is dimmable and suitable for use with LED lamps. Matching 3 light pendant, wall, table and floor options also available.

The Ascona 8 light fitting (above and below) is a classic design with a modern twist. The antique brass finish is simple, elegant and perfect for double-height ceilings, bedrooms, living room or dining room. The 8 clear sconces illuminate any room with style and sophistication.
