**Brief:** Livewell Waterford is a physiotherapy, fitness and well-being hub.

This project was completed in December 2016 for the launch of Livewell, Waterford. Our client worked closely with one of our sales professionals, Ronald, to create the right ambience for their treatment rooms, class area and reception area.

Laura's vision was to create a dynamic and professional business that would help optimize the health and wellness of women in Waterford at every stage of their life, therefore the lighting had to mirror her vision and add to the atmosphere she wanted to portray. The unit has been a big hit with Laura's clients since!

Testimonial:

"We have been open since December and are delighted to say that all of the clients have complimented the unit greatly. I have said it personally to you at the time of all the work but I would like to say again how grateful I am for all the time, effort and high standard of work that was provided by you – *Laura Carroll, Livewell Waterford*
