**Brief:** Thunders Bakery is a retail home bakery & deli which also provides an online ordering service. National Lighting worked on 2 of the 11 shops in the franchise. The projects were completed in June 2014.

The main goal was that the lighting match the accent of colours in each Thunder Bakery shop. The combination of vibrant red pendants and table lamps alongside the white wall lights and satin silver track lighting coincides beautifully with the ambience of the shop.

Testimonial:

“National Lighting was recommended to me by my electrician. Mary one of National Lighting’s sales consultants gave us multiple options based on our colour theme and branding. We’re very happy with the products and service provided.” – *Sinead Heffernan, Thunders Bakery*
